

## Policy Statement:

Transwaste have established an ISO 14001:2015 Environmental management system which provides a framework for measuring and improvement our performance.

Top management have established, implemented and continue to maintain an environmental policy that, within the defined scope of our environmental management system:

a) is appropriate to the purpose and context of the Transwaste, including the nature, scale and environmental impacts of its activities, products and services;

b) provide a framework for setting environmental objectives;

- 1) ensure that the EA compliance rating does not increase above band C
- 2) replace carcinogenic chemicals with environmentally friendlier options where available
- 3) ensure that 80% of our fleet is Euro 6 compliant
- 4) complete 1 x external duty of care audit per month

c) we are committed to the protection of the environmental, including prevention of pollution, sustainable resource use and climate change;

d) we are committed to fulfil our compliance obligations;

e) we are committed to continual improvement of the environmental management system to enhance environmental performance.

The environmental policy is available and maintained as documented information.

The environmental policy is communicated, understood and applied within Transwaste.

The environmental policy is available to relevant interested parties, as appropriate.
